

User Registration

<http://www.careersinaerospace.com/register/>

(1) Personal Details Enter your names.

(2) Email Enter your email address.

NOTE: Each directory submission requires a unique admin email address.

Therefore if you need to make multiple directory submissions as different user type (see 5), then you will need to register separate email address for each one.

(3) Password Enter and confirm a secure Password.

(4) Organisation/Activity Name is the Public Title of the Directory you wish submit. If you are creating an entry to promote your career opportunities, courses and training, please use your organisation name here. If you are adding an outreach activity or similar (such as scholarship programme, competition, annual event etc.) please use the activity name here. You can refer to the activity owner elsewhere in your profile. *See page 3 of this guide for example of how this field is displayed on your profile.*

(5) User Type is categorised. *The user type controls important functionality such as the classifications used in the directory search. You will not be able to change User Type later.*

(6) Accept Terms and subscribe to newsletter

WARNING

Your Directory submission must be completed and submitted all in one go. There is no save or preview functions.

We strongly suggest printing out the Edit Profile page and collecting all the required information in a document and return later to enter the information.

All submissions are moderated before being published.

Edit Directory Profile: Public Contact Details & Social Media

This page allows you to submit your entry to the directory, after which it will be moderated before being published. To amend your profile after it has been published you can return to this page to make further changes.

Company overview and opportunities

The Royal Aeronautical Society (RAeS) is the one multidisciplinary professional institution dedicated to the global aerospace community, operating an international network of over 60 branches with over 17,000 members from more than 100 countries. There are grades of membership for everyone, from students through to captains of industry. Promoting aerospace and aviation and related Science, Technology, Engineering and Mathematical (STEM) subjects to people of all ages is a key part of our activities as well as providing careers advice and guidance for those entering or already established in the sector.

If you have any questions regarding study, apprenticeships, recruitment or career development, please do not hesitate to contact us. We offer information, advice and guidance to anyone seeking help with their aerospace or aviation career, regardless of what stage you are at. Contact us for information on study, apprenticeship, employment or career development questions. You can also have a 1-2-1 careers appointment for more in-depth, tailored advice to suit your specific needs.
